## **DO NOT CLOSE DIABLO CANYON - IT IS A MUST RUN RESOURCE**

Diablo Canyon is a PROVEN, EFFECTIVE and ECOMOMICAL power generation resource. It MUST NOT be shut down as anticipated. The license should be extended and the plant should continue to operate into the future. It is a MAJOR source of carbon free power and provides the necessary reliability to power the state. In fact, more nuclear plants should be built and licensed. Nuclear power is the ONLY serious means to generate reliable and carbon free power. Premature closure of Diablo Canyon would be a signifigant error. Please ensure Diablo Canyon is considered a "must run" faciity. Thank You.
