## **Shut Down Diablo Canyon**

While I do not reside in CA, I am a very concerned citizen writing you to insist that Diablo Canyon must be shut down as scheduled by 2025. A serious nuclear accident at Diablo would have lethal consequences not only for the local area and your state, but for the world. Nuclear radiation knows no boundaries, and is carried around the globe by prevailing winds. ALL of us are affected.

Also, regarding Diablo, there are a myriad of unresolved and disconcerting issues: seismic vulnerability, violation of the closure agreement, unlawful cooling system, storage of even more high-level radioactive waste, and the prohibitive cost of this attempt to resurrect the plant.

**SHUT DOWN DIABLO CANYON ASAP, AND FOREVER!**
