## **Retire Diablo Canyon!**

Dear People,

Governor Newsom is on record as stating that Diablo Canyon needs to be cleanly shut down and retired, so I'm especially disappointed to see that he is now promoting an expensive and deceptive plan to overturn the 2018 decision to do so.

Please reject the phony arguments that say nuclear power is safe, and Diablo Canyon is salvageable. We can build a fossil-free energy system in California without risking an earthquake in a nuclear power plant, or a radiation leakage.

Please do the right thing.
