Diablo Canyon NPP

I'm vehemently protesting Newsom's horrific plan to keep Diablo Canyon functioning as a nuclear power plant !

I have resided in San Luis Obispo since 1976, watching Diablo being built and run by PGE.

You have no idea the stress we've lived with all these years. It's been a constant everyday worry raising children here, looking in the phone book for the evacuation routes, do I have enough gas, how are my neighbors, what if my children are on the school bus, or if they went to the beach that day. And where did I put that darn iodine ?

When we heard about decommissioning we breathed a sigh of relief.

It is truly distressing that Newsom wants Diablo back on line !
