Close Diablo Canyon Nuke Reactors On Schedule

Diablo Canyon must be shut down as scheduled by 2025. There are a myriad of unresolved and disconcerting issues: seismic vulnerability, violation of the closure agreement, unlawful cooling system, storage of even more high-level radioactive waste, and the prohibitive cost of this attempt to resurrect the plant. Lobbying by the plant operator and pro-nuclear policy organizations are evidence that Governor Newsom is being asked to put Californians health second, behind the for-profit obsolete nuclear generation industry which puts the communities of San Luis Obispo, Five Cities, Morro Bay and Cayucos in the front line if a Diablo Canyon nuclear reactor melts down, as dramatized in the movie "The China Syndrome"
