## **Diablo Canyon Nuclear Power Plant Must Shut Down As Scheduled by 2025!**

I am a San Luis Obispo County, California, resident who has lived within 15 miles of Diablo Canyon Nuclear Power Plant, for the past 36 years. I am writing to express my objection to prolonging operations at Diablo Canyon Nuclear Plant beyond the agreed upon closing dates in 2024 and 2025.

Diablo Canyon Nuclear Power Plant must shut down as scheduled. This aging power plant is beyond repair and poses an imminent danger to San Luis Obispo County residents, as well as those in surrounding counties, by continued operation. Safety of the people and the environment must outweigh the greed of those seeking to extend its license to operate.

There is a myriad of unresolved and disconcerting issues: seismic vulnerability, violation of the closure agreement, unlawful cooling system, storage of even more high-level radioactive waste, and the prohibitive cost of this attempt to resurrect the plant.

Thank you,  
Julie Mansfield-Wells  
San Luis Obispo County, California
