Redlands Clean Air re: Lithium Valley Commission Meeting

Redlands Clean Air is writing in response to the Lithium Valley Commissions recommendations for the future of Lithium Extraction. We are writing in support of the surrounding communities of the Salton Sea & demand that more time be given for public review, better archiving and accessing of agendas and records, more opportunities for public comment at more reasonable hours, more clarity about the report and how itâ€™s going to be used by decision makers, and more transparency in approval processes.
