To: Commission, Lithium Valley@Energy
Subject: Revised Update: September Meeting and Draft Report of the Blue Ribbon Commission on Lithium Extraction in California

Importance: High

Dear Lithium Valley Commissioners and Stakeholders,

The September 29th Lithium Valley Commission meeting will be held at Westmorland Union Elementary School in Westmorland, CA, and remotely via Zoom. Please note that the meeting will start and end later than past meetings, and will be held from 2:00-6:00pm.

The Draft AB 1657 Report of the Blue Ribbon Commission on Lithium Extraction **will be released as soon as possible**. The unanticipated State of emergency prompted by the extended extreme heat wave event in California and across the west has demanded that CEC resources be dedicated to electricity grid reliability to ensure public health and safety of California residents.

As discussed at the August 25th Lithium Valley Commission meeting, the draft report will first be posted in English. It is anticipated that the Spanish translation will be available and posted approximately 15-16 days later. Once the Spanish version of the report is available, a 30-day review period for both versions will be provided.

We appreciate your understanding and look forward to supporting future discussions and deliberation. Note that all Lithium Valley Commissioners have been BCC'd on this notice.

Thank you,
Deana Carrillo
