Notice of Clean Transportation
Program Advisory Committee Remote-
Access Only Meeting

RE: Clean Transportation Program

**Notice of Clean Transportation Program
Advisory Committee Meeting
October 6, 2022**

9:00 a.m. – 1:00 p.m.

Remote Access Only

Remote access is available by computer or phone via Zoom.™
(Instructions below)

The Presiding Member of the Clean Transportation Program Advisory Committee (Advisory Committee), Commissioner Patty Monahan, and staff of the California Energy Commission (CEC) will host a public meeting of the Clean Transportation Program (CTP) Advisory Committee. During this remote-access only meeting, staff will present an overview of proposed funding allocations included in the **revised** staff report version of the *2022-2023 Investment Plan Update for the Clean Transportation Program*. Input is sought from the CTP Advisory Committee and the public regarding the proposed allocations and rationale for proposed expenditures. Staff will also present additional funding from the state budget and federal government.

The public can participate in the meeting consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The meeting may end sooner or later than the posted end time.

Agenda

- Welcome and introductions
- Presentation by CEC staff on clean transportation funding: state budget and federal funding
- Presentations by CEC staff on recent Clean Transportation Program implementation and related zero-emission vehicle analysis and planning activities, including the Assembly Bill

2127 (2018) charging infrastructure assessment and Senate Bill 643 (2021) hydrogen assessment.

- Presentation by CEC staff on the revised staff report version of the *2022-2023 Investment Plan Update*, including proposed funding allocations and public input process
- Advisory Committee discussion of the *2022-2023 Investment Plan Update*
- Public comment

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007) created the Clean Transportation Program. The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change policies. AB 8 (Perea, Chapter 401, Statutes of 2013) re-authorizes the Clean Transportation Program until January 1, 2024, and specifies that the CEC allocate up to \$20 million per year (or up to 20 percent of each fiscal year's funds) in funding for hydrogen station development until at least 100 stations are operational. The CEC has an annual Clean Transportation Program budget of approximately \$100 million¹ and provides financial and technical support for projects that:

- Reduce greenhouse gas emissions as well as criteria and toxic air pollutants from the transportation sector.
- Address the clean air, employment, and mobility needs of low-income or disadvantaged communities.
- Deploy or support the deployment of electric vehicle charging and hydrogen refueling infrastructure.
- Support workforce training programs, fuel production, local and regional planning, and in-state manufacturing for zero-emission vehicles and infrastructure.

Statute (Health & Safety Code § 44272.7) requires the CEC to annually update the investment plan to communicate the CEC's strategic vision, determine the funding priorities and opportunities for the upcoming fiscal year, and provide an analytical rationale for proposed expenditures. The investment plan update also highlights and explains the rationale for any year-to-year changes to the Clean Transportation Program strategy and funding priorities. Projects funded by the CEC under the Clean Transportation Program must be consistent with the priorities established in the investment plan.

The **revised** staff report version of the *2022-2023 Investment Plan Update*, and all related documents, will be available in this online [Investment Plan Update docket](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-ALT-01) found at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-ALT-01>.

Statute (Health & Safety Code § 44272.5) also directs the CEC to create and consult with an advisory body as the CEC develops the investment plan. That body is the Advisory Committee and by law, the Advisory Committee must include, but is not limited to, representatives of fuel and
