*IN THE MATTER OF:*

*STACK Backup Generating Facility*

Docket No. 21-SPPE-02

## **ORDER VACATING REQUEST FOR SUPPLEMENTAL INFORMATION REGARDING WATER SUPPLY ASSESSMENT**

### **BACKGROUND**

On September 15, 2022, the California Energy Commission (CEC) Committee<sup>1</sup> for the application for a Small Power Plant Exemption for the SVY Backup Generating Facility (Application)<sup>2</sup> issued a Committee Scheduling Order and Order Requesting Supplemental Information (Scheduling Order).<sup>3</sup> The Scheduling Order directs that by September 28, 2022, the parties provide supplemental information regarding whether a water supply assessment is required for the project.<sup>4</sup>

On September 21, 2022, Applicant filed a response to the Scheduling Order stating that “while STACK does not concede a Water Supply Assessment is required, the issue is moot as the City of San Jose has determined it will request a Water Supply Assessment be performed by San Jose Water Company.” Applicant therefore requests that the Committee relieve the parties of the order to brief the questions identified in the Scheduling Order.<sup>5</sup>

### **ORDER**

The preparation of a water supply assessment moots the need to determine whether a water supply assessment is required for the project.
