NOTICE OF REMOTE-ACCESS  
WORKSHOP

RE: Clean Transportation Program  
Community Benefits

## **Notice of Clean Transportation Program Community Benefits Workshop**

**November 29, 2022**

10:00 a.m. - 12:00 p.m.

**Remote Access Only**

The California Energy Commission (CEC) will host a workshop to discuss and receive stakeholder feedback on how to define, measure, and improve the benefits provided to communities by the CEC Clean Transportation Program (CTP). The CEC is committed to equity, which includes how funds are allocated. This workshop continues the effort to ensure that CTP projects are not only located in disadvantaged and low-income communities but also that these communities benefit from CTP investments.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time. Spanish interpretation will be available.

### **Agenda**

The workshop will include a staff presentation on the CTP community benefits efforts, panel discussions, and a public question and comment period.

A detailed meeting agenda will be posted prior to the workshop on the events page of the CEC website, <https://www.energy.ca.gov/events>.

1. Welcome and logistics
2. Introductory comments

3. Staff concept presentation
4. Panel discussions
5. Q&A and public comment
6. Close and next steps

## **Background**

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007) created the Clean Transportation Program to help achieve California's climate change policies and support projects that reduce greenhouse gas emissions from the transportation sector. Over fourteen years, the CTP has provided more than \$1 billion in funding for a broad spectrum of zero-emission vehicles and infrastructure, alternative fuels and technologies, and workforce development projects. The CEC seeks to invest more than 50 percent of CTP funds in its [2022-2023 investment plan](https://www.energy.ca.gov/programs-and-topics/programs/clean-transportation-program/clean-transportation-program-investment-7) (<https://www.energy.ca.gov/programs-and-topics/programs/clean-transportation-program/clean-transportation-program-investment-7>) towards projects that benefit low-income and disadvantaged communities. To better ensure that CTP investments benefit low-income and disadvantaged communities and other communities, the Fuels and Transportation Division seeks to develop a framework to measure and track the community benefits provided by the CTP.

This workshop will gather stakeholder input on how to define, measure, and improve the benefits provided to communities by the CTP. Based on public input received during this workshop, the CEC plans to propose a CTP community benefits framework within the next year.
