CEC-70 (Revised 11/2021)

IN THE MATTER OF:

*2022 Integrated Energy Policy Report Update  
(2022 IEPR Update)*

Docket No. 22-IEPR-03

NOTICE OF REMOTE-ACCESS  
WORKSHOP

RE: Demand Forecast

## **Notice of IEPR Commissioner Workshop on Updates to the California Energy Demand 2022-2035 Forecast**

**December 7, 2022**

10:00 a.m. – 5:00 p.m.

### **Remote Access via Zoom™:**

<https://zoom.us/>, webinar ID: **957 8293 5747** and passcode: **IEPR2022**

The California Energy Commission (CEC) will host a workshop to present the energy demand analysis for the *2022 Integrated Energy Policy Report (2022 IEPR)*. The workshop will address results from the 2022 California Energy Demand Forecast, including the annual electricity forecasts and the hourly and peak electricity demand forecast.

The workshop is part of the 2022 IEPR Update proceeding. Vice Chair Siva Gunda is CEC's Lead Commissioner for the 2022 IEPR Update. A quorum of commissioners may participate, but no votes will be taken.

The public can participate in the workshop consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

Participants may join via Zoom by internet or by phone.

- **To use Zoom's online platform**, click on [this link](#), <https://energy.zoom.us/j/95782935747?pwd=V3pDZDRRbGN5dnhPVEZpZFZzcXprUT09> or by logging in via Zoom™ at <https://zoom.us/>, entering the **Webinar ID: 957 8293 5747** and **passcode: IEPR2022** and following all prompts.
- **To participate by telephone**, call toll-free at (888) 475-4499 or toll at (669) 219-2599. When prompted, enter the **Webinar ID: 957 8293 5747** and **passcode: IEPR2022**.

If you experience difficulties joining, contact Zoom at (888) 799-9666 ext. 2, or the Public Advisor at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov), or by phone at (916) 957-7910.

Attendees using a computer can access **Zoom's closed captioning service** by clicking on the "live transcript" CC icon and then choosing either "show subtitle" or "view full transcript." The closed captioning service can be stopped by closing out of the "live transcript" or selecting the "hide subtitle" from the pop-up menu. If using a phone, closed captioning is automatic and cannot be turned off. While the closed captioning is available in real-time, it can include errors. A more accurate transcript of the workshop developed by a professional court reporter will be docketed and posted in a later timeframe.

### **Agenda**

The workshop will be held from 10:00 a.m. to 5:00 p.m. with a break at approximately 12:30 p.m. and resuming at approximately 1:30 p.m.

In the morning session, staff will present the results of the baseline transportation forecast, as well as the additional achievable transportation electrification scenarios.

In the afternoon session, staff will present updates to the additional achievable energy efficiency and fuel substitution scenarios that include impacts from the California Air Resources Board's State Implementation Plan Strategy zero-emission space and water heating proposal. Staff will also present the overall electricity sales results and the hourly and peak demand forecast results.

There will be an opportunity for public comment at the end of the workshop.

A detailed meeting schedule will be posted prior to the workshop at [2022 IEPR Workshops, Notices and Documents](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2022-integrated-energy-policy-report-update-0), <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2022-integrated-energy-policy-report-update-0>.

### **Background**

The CEC develops and adopts forecasts of electricity demand every two years as part of the IEPR process, with updates in the alternate years. These forecasts are used in various proceedings including the California Public Utilities Commission's integrated resource planning, distribution resource planning, and resource adequacy proceedings, as well as the California Independent System Operator's transmission planning.

The CEC provides an update to its most recently adopted set of forecasts in even numbered years, as is the case for the 2022 IEPR Update. The forecast update is limited in scope, retaining most of the characteristics of the adopted forecast from the prior year. The update reflects newly available economic assessments, electricity consumption data, as well as embedded projections for key load modifiers such as generation from behind-the-meter photovoltaics and load from electric vehicle charging.

## **Public Comment**

**Oral comments** will be accepted at the end of the workshop. Comments may be limited to three minutes or less per speaker and one person per organization. Depending on the number of members of the public seeking to make a comment, the facilitator may adjust the total time allotted for public comment and the time allotted for each comment.

If participating via Zoom's online platform, use the "raise hand" feature to alert the administrator that you would like to make a comment after the lead commissioner opens the floor for public comment.

If participating by telephone, press \*9 to "raise your hand" and \*6 to mute/unmute. A workshop administrator will call on you by the last three digits of your phone number. Unmute your phone before introducing yourself and sharing your comment.

The Public Advisor may, upon the request of public participants who may be absent during the workshop when a matter of interest to them is being discussed, neutrally and publicly relate those participants' points to the CEC on behalf of the public. If you are interested in this service, please email concise comments, specifying your main points, before the start of the workshop to the Public Advisor at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov). Comments submitted after the workshop starts will be filed in the workshop docket.

**Written comments** must be submitted to the Docket Unit by 5:00 p.m. on **December 21, 2022**.

The CEC encourages use of its electronic commenting system. Visit the [e-commenting page](https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=22-IEPR-03) at <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=22-IEPR-03>, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document consistent with title 20 of the California Code of Regulations, section 1208.1. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number **22-IEPR-03 and Demand Forecast** in the subject line and email to [docket@energy.ca.gov](mailto:docket@energy.ca.gov).

If preferred, a paper copy may be sent to:

California Energy Commission  
Docket Unit, MS-4  
Docket No. 22-IEPR-03  
715 P Street  
Sacramento, California 95814-5512

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

### **Public Advisor and Other CEC Contacts**

The CEC's Public Advisor provides the public with assistance in participating in CEC proceedings. For information about how to participate in this workshop or to request interpreting services or other reasonable modification and accommodations, reach out by phone at (916) 957-7910 or via email at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov). Requests for interpreting services, reasonable modifications and accommodations should be made as soon as possible but at least five days in advance of the workshop. The CEC will work diligently to meet all requests based on the availability of the service or resource requested.

**Direct media inquiries** to [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov) or (916) 654-4989.

**Direct technical subject inquiries** to Heidi Javanbakht at [heidi.javanbakht@energy.ca.gov](mailto:heidi.javanbakht@energy.ca.gov) or (916) 776-3723.

**Direct general inquiries** regarding the IEPR proceeding to Raquel Kravitz at [raquel.kravitz@energy.ca.gov](mailto:raquel.kravitz@energy.ca.gov) or (916) 907-4284.

### **Availability of Documents**

Documents and presentations for this meeting will be available at [2022 Integrated Energy Policy Report Update \(ca.gov\)](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2022-integrated-energy-policy-report-update), <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2022-integrated-energy-policy-report-update>, or at [California Energy Commission: Docket Log](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03), <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03>.

When new information is posted, an email will be sent to the subscription lists identified below. To receive notices about the IEPR, subscribe at [Integrated Energy Policy Report - IEPR | California Energy Commission](https://energy.ca.gov/data-reports/integrated-energy-policy-report) page, <https://energy.ca.gov/data-reports/integrated-energy-policy-report>.
