Description:	IEPR Commissioner Workshop on Centering Equity and Environmental Justice Throughout CEC Efforts
Filer:	Raquel Kravitz
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	12/7/2022 9:48:57 AM
Docketed Date:	12/7/2022

Question Details

#	Question	Asker Name	Answer
1	Where can we find the recording for this meeting?	Nancy Metayer	All slides shown during today's workshop have been docketed and posted on the CEC website. You can find them here: https://www.energy.ca.gov/event/workshop/2022-07/iepr-commissioner-workshop-centering-equity-and-environmental-justice
2	Thank you.	Nancy Metayer	
3	Heather - we can hardly hear you due to mask.	Dee Anne Ross	ok, thanks for letting me know
4	I have to leave but the tone of this workshop, the people speaking, their humanity was really wonderful to hear. It makes me tone down some (not all) of my cynicism about our economy.	Dee Anne Ross	Thank you. We welcome your comments and if you would like to make comments and need to leave, you may want to submit written comments. We welcome feedback
5	California has towns reliant on, separately, agriculture and petroleum; both economic sectors are at risk due to climate issues. What cases exist for equitable transition of these whole economic sectors?	David Park	I heard Betony and Shrayas address some of your question, would you like additional clarity? I can then still share your question.
6	Besides H RTP funding, what other opportunities are available for community organizations involved in workforce development in the renewables sector?	Angela Bai	live answered
7	I will followup, but can you identify the current speaker?	David Park	Norma Rojas-Mora Executive Director, Government Relations and Development
7	I will followup, but can you identify the current speaker?	David Park	Bakersfield College
8	What are some resources around trauma-info	Angela Bai	live answered

9	<p>thanks for the great discussion of the issues & strategies. Re: climate action for the building sector, Where is Energy Poverty/Inequity addressed in the CEC programs ? This problem is being exacerbated by increasing climate change, urban heat, wildfires, grid outages, and utility prices.</p> <p>Energy efficient and low GHG retrofits of our buildings produce both energy and non energy benefits, including jobs and macroeconomic benefits, which California should assess and capture. For example:</p> <p>European Climate Foundation, 2022. BUILDING EUROPE'S NET-ZERO FUTURE. WHY THE TRANSITION TO ENERGY EFFICIENT AND ELECTRIFIED BUILDINGS STRENGTHENS EUROPE'S ECONOMY. https://europeanclimate.org/wp-content/uploads/2022/03/ecf-building-emissions-problem-march2022.pdf</p>	Tom Phillips# Davis# CA	live answered
10	Really excellent comments were made on Oil and Gas, just transition. Under the presumption that agricultural labor is significantly under-educated, what are the thoughts on transition of those jobs into the energy sector?	David Park	live answered
11	fyi- chat is disabled for those of us on zoom	greg	Yes, thanks, we send out info from the chat and the links Noemi is mentionion will be available from the chat. Thanks
12	In the visualization for Progress to 100% Clean Electricit, the breakdown between hydro, nuclear, and renewables for the 100% clean electricity scenario isn't shown. What's the breakdown? Or is the vision that hydro and nuclear would be phased out by 2045 as well (which is what community groups are advocating for)?	Angela Bai	Thank you for your question. Unfortunately, we did not have time to ask it. Please consider using the public comment period of this workshop session to phrase your question as a comment. Please also note that we do not have time for real-time response to public comment.
