Erin Sherlock RPA

Senior Archaeologist, Cultural Resources

Management
16 years of experience

Erin has fourteen years of experience as a professional archaeologist. She has worked on projects throughout California and the Great Basin. She has conducted archaeological studies for a variety of development and resource management projects, including military installations, utility projects, transportation projects, and commercial and residential developments. She has participated in a range of cultural resource studies, including laboratory analysis, geophysical surveys, pedestrian archaeological surveys, test excavations, archaeological monitoring, record searches, and data recovery programs. Erin has written technical reports, proposals and has completed environmental reports pertaining to cultural resource management, including the National Historic Preservation Act (NHPA), the National Environmental Policy Act (NEPA), and the California Environmental Quality Act (CEQA) and specializes in landscape archaeology. She has significant experience in utility projects including renewable energy (wind, solar, and geothermal), and has successfully managed projects, ensuring timely deliverables, budget parameters, and supervision of staff members. Erin has worked closely with agencies and clients to ensure environmental permitting and compliance. She remains active in continued training and professional organizations.
