## Topics for Discussion

### Panel 1

- What use cases should the CEC prioritize when preparing data to share publicly and with other govt stakeholders?
- Which data, and in what format, should the CEC prioritize to make publicly available?
- What methods or techniques, such as aggregation and anonymization, should the CEC use to maximize the value of shared data while protecting privacy?

### Panel 2

- For use cases where data sharing is infeasible, what additional analyses should the CEC consider conducting in-house for use by stakeholders and the public?
- Which additional self-service analytical tools should the CEC consider developing for public use?
- Which use cases should the CEC prioritize for the above analyses and tools?
- How can these analyses be made most accessible to different stakeholders?
