CEC-057 (Revised 1/21)

Notice of Public Comment Period
Docket No. 22-BSTD-07
Application Concerning
Locally Adopted Building Energy Efficiency Standards
in Accordance with Section 10-106 of
the California Code of Regulations, Title 24, Part 1

Local Jurisdiction Name: City of Glendale**Date of Local Adoption:** November 15, 2022**Designation of Locally Adopted Standard:** Ordinance #5999**Purpose**

The California Energy Commission (CEC) has posted locally adopted energy efficiency or conservation standards for a mandatory public review period, per California Code of Regulations, Title 24, Part 1, Chapter 10, sections 10-106 and 10-110. The application has been determined to be complete by CEC staff, including all the supporting information necessary to meet the requirements of section 10-106. The CEC seeks public comments on whether the locally adopted energy efficiency or conservation standards will require buildings to be designed to consume less energy than the *2022 California Energy Code*, California Code of Regulations, Title 24, Part 6 (2022 Energy Code).

Background

Statutory provisions in Public Resources Code section 25402.1(h)(2) and regulatory provisions in sections 10-106 and 10-110 of 2022 Energy Code establish a process that allows local governmental agencies to adopt and enforce energy efficiency standards for newly constructed buildings, additions, alterations, and repairs to existing buildings. Such local ordinances may not be enforced, however, unless and until the CEC finds that the local standards will require buildings to be designed to consume less energy than permitted by the Energy Code.

Local governmental agencies are required to submit these local standards to the CEC prior to enforcement. Per section 10-106, this application must include the following:

1. The proposed energy standards;
2. The local governmental agency’s energy-savings and cost-effectiveness findings, and supporting analyses;
3. A statement or finding by the local governmental agency that the local energy standards will require buildings to be designed to consume no more energy than permitted by the Energy Code; and
4. Any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act.

For the local jurisdiction to enforce the standard, the CEC must then find, based on the submitted application materials, that the local standards will result in a reduction in energy consumption compared to the statewide Energy Code and that the local jurisdiction has filed the basis of its cost-effectiveness determination with the CEC.
