CEC-70 (Revised 7/22)

*IN THE MATTER OF:**Draft Clean Energy Reliability Investment Plan*

Docket No. 21-ESR-01

NOTICE OF AVAILABILITY

RE: *Draft Clean Energy Reliability Investment Plan***Notice of Availability and Request for Comments on the
*Draft Clean Energy Reliability Investment Plan***

California Energy Commission (CEC) staff seeks public comment on the *Draft Clean Energy Reliability Investment Plan*. This document is available at Docket No. [21-ESR-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

Background

Senate Bill (SB) 846 (Dodd, Chapter 239, Statutes of 2022) requires the CEC to develop a \$1 billion Clean Energy Reliability Investment Plan (CERIP) in consultation with the California Public Utilities Commission (CPUC) and California Air Resources Board (CARB) by March 1, 2023. The CERIP will provide justification and recommendations for clean energy investments that accelerate the deployment of clean energy resources, support demand response, assist ratepayers, and increase energy reliability. The CERIP will take into account California's anticipated supply and demand needs for near-term and mid-term reliability; advancement of the state's policies towards 100 percent zero-carbon and renewable energy resources by 2045; and the state's greenhouse gas emissions reduction targets for the electricity sector. Funding would be separately appropriated over the next three years by the Legislature to implement the CERIP.

The CEC held a workshop on January 20, 2023 outlining the proposed priorities for the Clean Energy Reliability Investment Plan. Information from the workshops and public comments were key inputs in developing the *Draft Clean Energy Reliability Investment Plan*. All workshop documents including the agenda, transcripts, and presentation, are available at Docket No. [21-ESR-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

The CEC will review and consider comments received on the *Draft Clean Energy Reliability Investment Plan*. The final draft is expected to be available by late February 2023 to be considered for adoption at the CEC's business meeting on February 28, 2023.

Public Comment

Written comments must be submitted to the Docket Unit **by 5:00 p.m. on February 16, 2023**.

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

The CEC encourages the use of its electronic commenting system. Visit the e-commenting page for this Docket No. [21-ESR-01](#), at <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=21-ESR-01>. Enter your contact information and a subject title that describes your comment. Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document in Microsoft® Word or Adobe® Acrobat®. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number **21-ESR-01** and "Draft Clean Energy Reliability Investment Plan" in the subject line and email to docket@energy.ca.gov.

If preferred, a paper copy may be sent to:
