CEC-70 (Revised 7/22)

*IN THE MATTER OF:**Diablo Canyon Power Plant Extension
Final Draft CEC Analysis of Need to Support
Reliability*

Docket No. 21-ESR-01

NOTICE OF AVAILABILITY

RE: *Diablo Canyon Power Plant
Extension, Final Draft CEC Analysis of
Need to Support Reliability*

**Notice of Availability of the
*Diablo Canyon Power Plant Extension
Final Draft CEC Analysis of Need to Support Reliability***

The California Energy Commission (CEC) is considering adoption of the *Diablo Canyon Power Plant, Final Draft CEC Analysis of Need to Support Reliability* at its February 28, 2023 business meeting. This [report is available](#) at Docket No. 21-ESR-01, at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

Background

Senate Bill (SB) 846 (Dodd, Chapter 239, Statutes of 2022) put in place actions necessary to enable the extension of the Diablo Canyon Power Plant beyond 2025 if it is needed to support grid reliability. One of the requirements is for the CEC to assess whether the electricity forecasts for the calendar years 2024 to 2030 show potential for reliability deficiencies if the Diablo Canyon Power Plant operation is not extended, and whether extending operations of the Diablo Canyon Power Plant to at least 2030 is prudent to ensure reliability (see Public Resources Code section 25233.2(c)). This report provides a determination by the CEC of the need to extend the operation of the Diablo Canyon Power Plant for the calendar years 2024 to 2030. The analysis is based on an assessment of the state's electricity reliability based on forecasted demand and supply for that period.

The CEC held a workshop on January 20, 2023 related to the analysis of extending the Diablo Canyon Power Plant to at least 2030. Information from the workshop and public comments were key inputs in developing the *Diablo Canyon Power Plant Extension, Draft CEC Analysis of Need to Support Reliability*. The CEC considered all comments received, both at the workshop and in

writing, and incorporated edits into the final draft. All [workshop documents](#) including the agenda, transcripts, and presentation, are available at Docket No. 21-ESR-01, at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

Public Advisor and Other CEC Contacts

The CEC’s Public Advisor is available to assist with public participation in CEC proceedings. To request assistance email publicadvisor@energy.ca.gov or call (916) 957-7910.

Media Inquiries. Email mediaoffice@energy.ca.gov or call (916) 654-4989.

Technical Subject Inquiries. David Erne at david.erne@energy.ca.gov or (916) 776-0603.

General Inquiries: Kristen Widdifield at kristen.widdifield@energy.ca.gov.

Availability of Documents: [Notices and documents](#) for this proceeding are available at Docket No. 21-ESR-01, at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

When new information is posted, an email will be sent to those subscribed to Electricity Issues and Disadvantaged Communities Advisory Group subscription topics.
