DOCKET NO. 20-TIRE-01

NOTICE OF 14-DAY COMMENT PERIOD
EXTENSION

RE: Replacement Tire Efficiency Program Pre-rulemaking

Notice of 14-Day Extension of Comment Period for Replacement Tire Efficiency Pre-Rulemaking Staff Workshop

Docket 20-TIRE-01

The California Energy Commission (CEC) is extending the public written comment period for the Replacement Tire Efficiency Pre-Rulemaking Staff Workshop that was held on February 14, 2023. On December 7, 2022, the CEC posted the notice for the workshop with a request for comments by 5:00 p.m. on March 9, 2023. This notice extends the comment period by 14 days – comments are now due by 5:00 p.m. on Thursday, March 23, 2023.

Assembly Bill (AB) 844 (Nation, Chapter 645, Statutes of 2003) directs the CEC to adopt and implement a tire energy efficiency program of statewide applicability for replacement tires for passenger cars and light-duty trucks. The purpose of the Replacement Tire Efficiency Program, per AB 844, is to ensure that replacement tires sold in California are at least as energy efficient as the tires sold as original equipment on new vehicles. The CEC is required to review and revise the Replacement Tire Efficiency Program at least every three years following the adoption and implementation of tire efficiency regulations.

The proposed Replacement Tire Efficiency Program includes requirements that will impact both tire retailers (without limitation, physical, print, and online retailers) and manufacturers of tires sold in California. As a result, the CEC encourages participation from tire industry representatives, other interested parties, and the public.

The draft regulations and Draft Framework of California's Replacement Tire Efficiency Program can be found on the CEC's Replacement Tire Efficiency Proceeding Docket 20-TIRE-01, at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=20-TIRE-01>, under TN 248639, at <https://efiling.energy.ca.gov/GetDocument.aspx?tn=248639&DocumentContentId=83135>.

Written comments may be submitted to the Docket Unit by 5:00 p.m. on March 23, 2023. Written comments may also be submitted by email. Include docket number 20-TIRE-01 in the subject line and email to docket@energy.ca.gov.
