NOTICE OF REMOTE-ACCESS
WORKSHOP

RE: Clean Transportation Program
Community Benefits

**Notice of Clean Transportation Program Community Benefits
Second Workshop
March 28, 2023**

11:00 a.m. - 12:30 p.m.

Remote Access Only

See Attendance Instructions.

The California Energy Commission (CEC) will host a workshop to reflect on community benefits listening sessions hosted in March of 2023. The purpose of these sessions was to define, measure, and improve the benefits provided to communities by the CEC's Clean Transportation Program (CTP). The CEC is committed to equity and will use this insight to draft a framework to track community benefits for future projects. This workshop continues the effort to ensure that CTP projects are not only located in disadvantaged and low-income communities but also that these communities benefit from CTP investments. Based on public input received during this workshop, the CEC plans to propose a CTP community benefits framework within the year.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time. Spanish interpretation will be available.

Agenda

The workshop will include a staff presentation on the CTP community benefits efforts, panel discussions, and a public question and comment period.

A [detailed meeting agenda](#) will be posted prior to the workshop on the events page of the CEC website at <https://www.energy.ca.gov/events>.

1. Welcome and logistics
2. Introductory comments
3. Community outreach and engagement update
4. Q&A and public comment
5. Close and next steps

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007) created the Clean Transportation Program to help achieve California's climate change policies and support projects that reduce greenhouse gas emissions from the transportation sector. Over fourteen years, the CTP has provided more than \$1 billion in funding for a broad spectrum of zero-emission vehicles and infrastructure, alternative fuels and technologies, and workforce development projects.

The CEC seeks to invest more than 50 percent of CTP funds in its [2022-2023 investment plan](#) (<https://www.energy.ca.gov/programs-and-topics/programs/clean-transportation-program/clean-transportation-program-investment-7>) towards projects that benefit low-income and disadvantaged communities. To better ensure that CTP investments benefit low-income and disadvantaged communities and other communities, the CEC seeks to develop a framework to measure and track the community benefits provided by the CTP.
