Attention: Brew Bohan, Executive Director
California Energy Commission
drew.bohan@energy.ca.gov
drew.bohan@energy.ca.gov

The California Energy Commission must not revoke the HERS Program for Field Verification and Diagnostic Testing without first safeguarding the HERS Program for future code cycles. The Commission's attempt to revoke an entire industry without first identifying what new rules will be adopted in its place is reckless and unlawful.

The proposed rules under 23-HERS-01 will not only put me and my company out of business, it will substantially weaken the ability of scores of my students to continue to upgrade the Building Industry & seriously weaken our State's Climate Action program.

In my several decades of teaching & working in the Building Performance Industry, Field Verification & Diagnostic Testing ha made a significant contribution to improving the measurable quality of buildings in CA, and must be continued to avoid back-sliding on our State's Climate & Energy commitments.

The proposed Rule change must not be adopted.
Thank you for your consideration,
Peter Waring **Peter Waring**
