To whom it may concern:

I am a former HERS Title 24 rater and HERS II rater. I did Title 24 HERS inspections and testing in Southern California for 10 years.

Experiencing first hand the value of third party inspection and testing of installed HVAC systems and other energy efficiency building practices, I urge you to retain HERS inspection and testing in the next building code cycle. Do not suspend Title 24 HERS testing.

The safety and energy efficiency of HVAC systems depends upon it!

Thank you.

Dan Ochipinti

Former HERS I and II Rater
