To whom it may concern,

My name is Mauricio Morales and I have been involved in the HERS industry for the past 15 years. I am proud to be a HERS Rater, and I along with my clients value the HERS work that is done. By ensuring homes and HVAC systems are meeting California Energy compliance criteria, I truly believe we are making a positive difference in our state. I have also worked as an Energy Consultant during my 15 years. I am heavily invested in the HERS industry, not only financially but in the countless hours I have spent furthering my education and in developing my Career as a HERS Rater.

I am requesting the Commission to work through all the proposed changes to the Field Verification and Diagnostic Program, and adopt that program into Title-24, before revoking the HERS Program from Title-20.

Thank you,

Mauricio
