Clean Transportation Program Investment Plan
April 27, 2023**

9:00 a.m. – 1:00 p.m.

Remote Access Only

Remote access is available by computer or phone via Zoom.™
(Instructions below)

The Presiding Member of the Advisory Committee for the Clean Transportation Program Investment Plan (Advisory Committee), Commissioner Patty Monahan, and staff of the California Energy Commission (CEC), will host a public meeting of the Advisory Committee. During this remote-access only meeting, staff will present an overview of proposed funding allocations included in the staff draft report version of the *2023-2024 Investment Plan Update for the Clean Transportation Program (2023-2024 Investment Plan Update)*. Input is sought from the Advisory Committee and the public regarding the proposed allocations and rationale for proposed expenditures. Staff will also present on additional funding from the state budget and federal government.

The public can participate in the meeting consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The meeting may end sooner or later than the posted end time.

Agenda

- Welcome and introductions
- Presentations by CEC staff on recent Clean Transportation Program implementation and related zero-emission vehicle infrastructure analysis and planning activities.

- Presentation by CEC staff on the staff draft report version of the *2023-2024 Investment Plan Update*, including proposed funding allocations and public input process
- Advisory Committee discussion of the *2023-2024 Investment Plan Update*
- Public comment

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007) created the Clean Transportation Program. The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change policies. AB 8 (Perea, Chapter 401, Statutes of 2013) re-authorizes the Clean Transportation Program until January 1, 2024, and specifies that the CEC allocate up to \$20 million per year (or up to 20 percent of each fiscal year's funds) in funding for hydrogen station development until at least 100 stations are operational. Revenue collection for the Clean Transportation Program is set to sunset starting at the end of this year if it is not reauthorized by the state legislature. The Administration has proposed an extension of the program as part of the 2023-24 Governor's Budget.

The CEC has an annual Clean Transportation Program budget of approximately \$100 million¹ and provides financial and technical support for projects that:

- Reduce greenhouse gas emissions as well as criteria and toxic air pollutants from the transportation sector.
- Address the clean air, employment, and mobility needs of low-income or disadvantaged communities.
- Deploy or support the deployment of electric vehicle charging and hydrogen refueling infrastructure.
- Support workforce training programs, fuel production, local and regional planning, and in-state manufacturing for zero-emission vehicles and infrastructure.

Statute (Health & Safety Code § 44272.7) requires the CEC to annually update the investment plan to communicate the CEC's strategic vision, determine the funding priorities and opportunities for the upcoming fiscal year, and provide an analytical rationale for proposed expenditures. The investment plan update also highlights and explains the rationale for any year-to-year changes to the Clean Transportation Program strategy and funding priorities. Projects funded by the CEC under the Clean Transportation Program must be consistent with the priorities established in the investment plan.

The staff draft report version of the *2023-2024 Investment Plan Update*, and all related documents, will be available in this online [Investment Plan Update docket](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-ALT-01) found at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-ALT-01>.

Statute (Health & Safety Code § 44272.5) also directs the CEC to create and consult with an advisory body as the CEC develops the investment plan. That body is the Advisory Committee and

by law, the Advisory Committee must include, but is not limited to, representatives of fuel and vehicle technology entities, labor organizations, environmental organizations, community-based justice and public health organizations, recreational boaters, consumer advocates, academic institutions, workforce training groups, and private industry. The Advisory Committee shall also include representatives from the California Natural Resources Agency, the California State Transportation Agency, the California Labor and Workforce Development Agency, and the California Environmental Protection Agency.
