Sacramento, CA 95814

RE: **Black Rock Geothermal Project (23-AFC-03) Application for Confidential Designation for AFC Appendix 5.8A, Paleontological Locality Records**

Dear Mr. Bohan:

Pursuant to Sections 2505 *et seq.*, of Title 20 of the California Code of Regulations, Black Rock Geothermal LLC (the "Applicant") hereby submits this *Application for Confidential Designation* for Appendix 5.8A, Paleontological Locality Records, submitted in support of the Application for Certification of the Black Rock Geothermal Project.

Please contact us at (916) 447-2166 should you have any questions or require additional information. Thank you.

Sincerely,

/s/

**APPLICATION FOR CONFIDENTIAL DESIGNATION**  
**Black Rock Geothermal Project, (23-AFC-03)**

1. *Specifically indicate those parts of the record which should be kept confidential.*  
*a. Title, date, and description (including number of pages) of the information or data for which you request confidential designation.*

*b. Parts of the information or data for which you request confidential designation*

Black Rock Geothermal LLC (the “Applicant”) seeks confidential designation for the following paleontological resources information (the “Information”):

<b>Appendix Number</b>	<b>Description of Information for Which Confidential Designation is Requested</b>	<b>Subject Area</b>	<b># of Confidential Pages</b>
5.8A	Confidential Paleontological Locality Records	Paleontological Resources	All pages

The Information should be kept confidential in its entirety as it contains sensitive information regarding the location of certain paleontological resources.

2. *State the length of time the record should be kept confidential, and provide justification for the length of time.*

The Information should be held confidential indefinitely in order to protect the paleontological resources identified therein.

3. *Cite and discuss:*

- (a) the provisions of the Public Records Act or other law that allow the Commission to keep the information or data confidential, and explain why the provision applies to the material.*
- (b) the public interest in nondisclosure of the material submitted for confidential designation. If the material contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please state how it would be lost, the value of the information to the applicant and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.*

California Government Code Section 7922.000 provides that an agency may withhold information from disclosure where the public interest served by nondisclosure clearly outweighs the public interest of disclosure. The public interest in nondisclosure outweighs that of disclosure, as disclosure may enable the location of sensitive paleontological resources sites by entities conducting unauthorized collection or disturbance of such resources.

4. *State whether the information may be disclosed if it is aggregated with other information or masked to conceal certain portions, and if so the degree of aggregation or masking required.*

The Applicant considered whether it would be possible to aggregate or mask the information. Figures depicting the substance of the material contained within the Information have been

provided as part of the Application for Certification, but at a less granular level of detail. This facilitates an understanding of the types and general locations of the paleontological resources in the study area without disclosing specific site information.

5. *State whether and how the information is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant, and if so under what circumstances.*

The Information is accessible to employees or consultants working on behalf of the Applicant, professionals and others with access to paleontological locality records, including those of the Stout Research Center at the Anza-Borrego Desert State Park, and regulatory agencies that have regulatory oversight or other responsibilities over either the Information or the Black Rock Geothermal Project.

*I certify under penalty of perjury that the information contained in this Application for Confidential Designation is true, correct, and complete to the best of my knowledge and belief. I am authorized to make this Application and Certification on behalf of the Applicant.*

Dated: April 18, 2023
