The California Energy Commission (CEC) will host a workshop to provide an overview of the proposed approach for the cost comparison of extending Diablo Canyon Power Plant (DCPP) operations to a portfolio of other feasible resources as required by Senate Bill 846, Dodd, 2022 (SB 846), answer questions, and solicit input. The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

**Agenda**

CEC staff will present the proposed analytical approach for developing the Diablo Canyon Power Plant Cost Analysis Report (Report). The Report will be submitted to the legislature by September 30, 2023.

There will also be a question and answer session and opportunity for public comment.

A detailed schedule will be posted prior to the workshop to the Docket No. [21-ESR-01](#), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

## **Background**

SB 846 requires the CEC to present a cost comparison of extending the DCPD to a portfolio of other feasible resources available for calendar years 2024 to 2035. The portfolio should be consistent with the greenhouse gas emissions reductions goals of Section 454.53 of the Public Utilities Code. The report is due to the legislature by September 30, 2023.

## **In-Person Attendance Instructions**

The in-person location for the workshop is 1516 Ninth Street Sacramento, California 95814. Please register at the security desk to receive a temporary visitor badge. Masks and social distancing are encouraged but not required.
