Responses to the docketed comments in response to Staff Workshop on Non-energy Impacts and Process Evaluation of Integrated Energy Retrofit Packages in California's Residential Buildings (July 28th, 2023)

- 1. Comment: the comment deadline should be extended, especially given the very high funding level and the complex scope of the problem.**

Response: Public can submit their comments via [docket](#) or email (docket@energy.ca.gov) even after the deadline. The deadline for submitting comments for the scoping workshop should not be considered a hard deadline. We will be shaping the solicitation through the end of this month, so further comments received in August 2023 could be considered. Comments submitted after August 2023 could still be considered in the context of CEC's energy-related environmental research efforts.
