Submission Date:	10/10/2023 4:11:46 PM
Docketed Date:	10/10/2023

**Right-Energy Title 24 Version 2022.3.0 Compliance Software
Approval by the Executive Director
Docket # 22-BSTD-02, Approval # 23-092623B**

The executive director hereby approves Right-Energy Title 24 2022.3.0 as an update to Right-Energy Title 24 2022.2.0, which incorporates the new version of the California Building Energy Code Compliance Residential (CBECC-Res) compliance manager, pursuant to Sections 1.2.1 and 1.3.2 of the 2022 Alternative Calculation Method (ACM) Approval Manual.

On March 6, 2023, the California Energy Commission (CEC) approved Right-Energy Title 24 2022.2.0 as an alternative calculation method for demonstrating performance compliance with the residential new-construction provisions of the 2022 California Building Energy Efficiency Standards (2022 Energy Code). When the CEC approved Right-Energy Title 24 2022.2.0, it directed the executive director to take actions including “reviewing and approving updates to vendor software, consistent with Section 1 of the 2022 ACM Approval Manual.”

On June 16, 2023, the CEC approved CBECC 2022.3.0 and CBECC-Res 2022.3.0 as the public domain software for estimating energy consumed by nonresidential, multifamily, and residential buildings under Public Resources Code section 25402.1(a), for demonstrating compliance with the performance-based provisions of the 2022 Energy Code.

On September 11, 2023, MiTek Wrightsoft submitted an application to the CEC for approval of Right-Energy Title 24 2022.3.0 as an update to its compliance software, which incorporates the CBECC-Res 2022.3.0 compliance manager. The application contained the elements required by Section 1.1 of the 2022 ACM Approval Manual, and CEC staff determined that the application was complete and able to be approved.

Information for obtaining Right-Energy Title 24 2022.3.0 is posted on the CEC’s [2022 Energy Code Compliance Software webpage](https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2022-building-energy-efficiency-1) at <https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2022-building-energy-efficiency-1>.
