100% support wind farm

We should not put any credence in the Shasta Board of Supervisors MAGA extremists objection to the wind farm. These three board member have used a belief in the Trump "big lie" to cancel the county's voting machine contract and propose hand counting ballots. Now they want to convert our county to a charter county so they can appoint the registrar of elections rather than continue with our elected vote counter. Additionally their judgement should be questioned since they have appointed totally unqualified Trump loyalists to count positions.
