Update ASHRAE 140 Reference to include acceptance criteria

In section 10-116 titled "Third Party Alternative Calculation Method Compliance Software," there is currently under (b)(5) the language:

"Alternative nonresidential energy simulation engine which meets all of the requirements of ASHRAE 140 (2014) and produces results that are accurate to the simulation results of the Energy Commission public domain computer program."

In this sentence, please change "ASHRAE 140 (2014)" to "ASHRAE Standard (2023) including Annex A3 Software Acceptance Criteria".

As the lead of the Acceptance Criteria and Referencing working group, I would be glad to assist in explaining the changes to the standard, including the acceptance criteria.
