Docket No 23-ERDD-07

RE: East Road Storage Project Initial Study

I received your "Notice of Intent to Adopt a Mitigated Negative Declaration" for the East Road Storage (CEC-500-2023-055-D). This is a Pacific Gas and Electric Co. Proposed project located in Redwood Valley. California.

This letter is written to you opposing the adoption of this mitigated negative declaration.

I own the residential property at 900 Valley View, Redwood Valley, CA. The distance from this proposed project to my property is uphill approximately 1000 feet. There are many other residential properties that are much closer to this project than mine.

I feel strongly that this project has not been examined thoroughly enough to allow it to move forward with a "MITIGATED NEGATIVE DECLARATION". Any project that has the potential to disrupt the peace, noise and light pollution and be detrimental to health or create discomfort should not be allowed in this residential setting. PG&E has not complied with the conditions of approval that were outlined by the County of Mendocino dated September 15, 2020 for their current equipment and materials storage facility at 7475 east Road, Redwood Valley, CA. - the same site. Why would PG&E comply with the regulations on this site when it has not done so on the existing storage facility?

We request that the California Energy Commission not adopt this Mitigated Negative Declaration.

Respectfully,  
Carl Tveit & Sylvia Lodge
