Request to extend e-comments to Jan 31, 2024

I'm humbly requesting the CEC to extend the timeframe to provide comments for such an important draft solicitation. If I'm not mistaken, the original notification appeared to have been sent out on Dec 22, 2023 right before the year-end Holidays. Considering that most teams are away and coordination to analyze this valuable solicitation may be significantly limited until the second week of January, I request the CEC to extend the timeframe to respond by e-comments to January 31, 2024.
