Rebates or tax incentives for work completed in 2023

Many of us were excited when the IRA act went through and we upgraded electrical panels and wiring and bought energy efficient appliances in 2023. Will we be able to take advantage of the rebates or tax credits you promised us on our 2023 taxes? Where do I find the forms and information to do that? Rebates at the time of purchase were not available to us in 2023. There are many of us who did the work in 2023 and let's hope we don't get penalized for it as soon as we could. Unfortunate that CA has taken so long to put the program into place and given little info about it.

Thanks.

Linda Schaller
