## **HOMES and HEEHRA Programs**

Please provide a timeline for when funds will be available to California residents that want to upgrade their homes to make them more energy efficient. I have old and inefficient appliances, wiring, and HVAC systems in my home. I am lower income and really need these programs in order to make needed upgrades. I also think that the rebates should be easy to apply for and there needs to be a way of getting them that prevents contractors from overcharging customers because they are eligible for the rebates and credits.
