## **Stop the wind mills**

The people of Shasta county have spoken. We do not want the wind mills on top of this hill.

If the state of California wants them so bad put them in their own back yards.

These do nothing for the environment other than destroy it.

They are removing the dams that have been around for more than 50 years and depending on who you talk to, the dams have created all kinds of opportunities for everyone and everything in the north state.

I personally see the wind mills as a deterrent to our area to the wilderness, wildlife and beauty of our community.

If you want them put them on the top of the ski slopes in Tahoe and tell me if that would work.
