Not Progress

It concerns me as a citizen and voter that those in Sacramento have not realized the severe danger we in northern California face from fires. This project would make fighting fires effectively more difficult than it already is. In addition, this disrespect shown to the Pit River Tribal members seems incongruous with the delineated policies of the current governor. Lastly, is there no respect for the decisions of the local community which has chosen NOT to have a wind field here? Why do we vote if you disregard our decisions so completely?

No on Fountain Wind Project.
