## **Reject the fountain wind project**

Shasta county has spoken. Shasta county has spoken not once, but twice. Fountain wind is trying to get back door approval for their project.

Shasta County has spoke . We do not want these wind turbines in our community. Fountain wind project ignores local County ordinances and is acting like a child who didnâ€™t get their way by trying to find someone to give them the answer they want.

The wind turbines will endanger wildlife, will increase wildfire risks in an already high fire zone, and impede aerial firefighting efforts.

Fountain wind project employees will not be the ones who have to suffer with the consequences of their project, but the residents of Shasta county will. Shasta countyâ€™s wildlife, infants, children, and community members will suffer at the hands of this project.

Follow Shasta countyâ€™s lead and say no to the fountain wind project.
