## **Participating in CAISO events**

Some balancing authorities are not likely to call EEAs, meaning they will have small to zero participation in this program if participation is limited to participating entities' balancing authority EEAs. We would like to request that participation be allowed for either CAISO or the participating entities' balancing authority's EEAs. Without that change, many organizations in California will be left out of this program, and resulting in the loss of peak demand reductions in all regions during these critical periods.
