NO TO FOUNTAIN WIND PROJECT!

I am in opposition to the Fountain Wind Project that threatens to destroy the natural beauty of another area of Shasta County. The installation of these windmills is destructive to our beautiful forested landscape, and is hazardous to our firefighters who come in via airplane or helicopter. They also are a danger to our eagles, hawks and other wildlife. If these windmills are cost effective and produce a large amount of power, place them in areas that have less wilderness such as the Owens Valley and other flat areas of the state that are not National Forest or full of wildlife. Thank you for your time.
