Docket Number: 23-OPT-01

Wind project will be good for the community

We support the project because it benefits the local community, the state and the nation.

Benefits for the community: Employment in the rural area, particularly for young people who might not have to move out of the area for employment.

Tax revenue for the community: The project will pay property taxes similar to many multi million dollar homes without costs such as fire, sewer, water, police, thus economic gain for the county and state.

Decrease burning of natural gas in the state and nation, leaving more natural gas in the ground for our future generations use.

Thank you,

Robert Gates
