Income Eligibility Verification Services

Over 3 million employers and payroll providers nationwide report to Equifax Workforce Solutions income information in real time as they issue paychecks. We are available on the DGS MSA and our service is unique.

This service is currently being used to verify the income eligibility for the State of California's largest public assistance programs such as MediCal, Covered California, CalWORKS and CalFresh as well as locating and validating non-custodial parent income for the California Department of Child Support.

We are available to answer any questions you may have of us as to how we might similarly assist you with determining the income levels for the eligibility determinations for your programs.
