Retroactive Rebate

With the public comment meeting set to occur just over a week from today, I am once again writing to request retroactive rebates be applied to those of us who waited until the law as passed and put into effect on January 1st, 2023. The delayed rollout of this program should not be a punishment for those of us who did the right thing and made energy efficient home improvements to lower our energy consumption with the knowledge that we would be receiving rebates for our investments into energy saving equipment.
