Make HEEHRA rebates available asap!

Inflation Reduction Act Residential Energy Rebate Programs, 23-DECARB-01

We're homeowners who want to replace our gas furnace with an electric heat pump, but we need the rebates to make this affordable. We'd hoped to do the project last fall, when the guidelines were originally projected to be published, and we can't proceed until rebates are available. Many people are in the same position.

Please establish criteria and make applications available NOW!!! It's crazy that it's taken this long!

Thank you in advance.
