## **Updates on HEERA rebates timing**

Quote from the FAQ: CEC submitted an application for its allocated funding on January 12, 2024. The U.S. Department of Energy is reviewing Californias application for the HEEHRA Program.

Any updates over the past 4 months on the expected timeline for this federal review of the CEC HEERA application?

Is the CEC poised to begin quickly upon its approval, or will the public again be asked to wait patiently while the CEC begins further implementation planning?

Clearly the public has become impatient with the slow, non-transparent pace over the past two years, and has good reason to dread the chaos once the CEC finally releases the long-anticipated HEERA rebate program.
