Docketed Date:	6/14/2024

Information About IEPR Loss Factors

Scavo, Jordan@Energy <Jordan.Scavo@energy.ca.gov>

Fri 6/14/2024 3:29 PM

To: Justin Wynne <wynne@braunlegal.com>

Dear Justin:

During the Power Source Disclosure Rulemaking workshop on June 11, 2024, you requested additional information about the transmission and distribution loss factors included in the proposed Express Terms at Section 1392(a)(8)(B). Please refer to the document relied upon as listed on page 48 of the Initial Statement of Reasons: California Energy Commission, *CED Demand Side Modeling* (<https://www.energy.ca.gov/data-reports/california-energy-planning-library/forecasts-and-system-planning/demand-side-1>). The equation for the loss factors is under the drop-down tab on that page named "Loss Factors by CEC Forecast Planning Area." For more information about the Demand Side Modeling and how to participate in that proceeding, please refer to:

- 2024 Integrated Energy Policy Report Update, [Docket Number 24-IEPR-01](#), and
- 2024 Electricity Demand Forecast, [Docket Number 24-IEPR-03](#).

Sincerely,
Jordan Scavo
Technical Lead
Power Source Disclosure
