OPPOSE BESS FACILITY SAN JUAN CAPISTRANO

hello,

We oppose the placement of a BESS facility in a very suburban area of So Orange County. The dangers to local homes is beyond catastrophic if a fire starts from this facility. Property Owners both in San Juan Cap and Laguna Niguel have tremendous difficulty obtaining property insurance in the area due to brush/prior fires, and this will potentially make it 100 times worse if there is a fire. Why in the middle of a suburban area? There is so much available useable land in the middle of nowhere for these types of facilities, so if there is a fire, there is no impact to property owners, both residential & commercial. Why this is even being entertained is beyond logical comprehension. Isn't there an old military city just outside of Joshua Tree/29 Palms that may possible be sourced for something like this? Pls do a better job of sourcing locations for these dangerous facilities so as to not harm the general population. Thank you.
