Battery Energy Storage in San Juan Capistrano

Hello, I am writing to you because I am GREATLY concerned about having a battery storage a few miles away from me, my family and my house. This is a CRAZY and STUPID idea to put it on the Saddleback Church grounds!!!! This would be close to homes, schools, businesses, the passenger train that goes through there and right next to the 5 Freeway. What kind of church puts the well being of people, their safety, their health and their homes in jeopardy for money. Also, this would be a environmental catastrophe....the water run off will go into the creek that is there which leads in to the ocean and poison the ground around it. If a fire starts it won't be able to be put out for days or weeks that's already happened in 38 other towns and cities. This puts all of our lives in danger including the firemen with breathing toxic fumes or dieing. Our house insurance has doubled this year and some people where just dropped out right....what is going to happen if this goes through and the insurance companies find out about it then what!! WE CANNOT AFFORD THIS !!!!! I know that the city has put a temporary stop to this and now they are trying to get around the city and the public and going to you for approval. I am counting on you all to put a stop to this!! A lot of people are upset about thiswe are working everyday to pay our bills, take care of families etc but it is your job to take care of us the public and not have them put us in danger and ruin our quality of lives with toxic and hazardous materials. A battery storage should be out in the middle of the desert somewhere and not close to people, homes, schools, the ocean, the freeway, passenger train etc, etc. I would hope that the health and safety of the public is the most important thing above all else. I have also sent an email to Supervisor Foely, all the council members of San Juan Capistrano, the Public Utilities Commission etc etc and will be writing also to the media and/or whoever can put a stop to this. I appreciate your time listening to my concerns but PLEASE this needs to be stopped.
Thank You
Grace Turi
