## **Compass Energy Storage Project location**

My family is not comfortable having a lithium battery storage site built so close to where we live. Due to historical fires started in similar sites, this is a very dangerous place for such a facility. All it would take is a shift in wind and a fire could wipe out thousands of homes just up the hill from the site. A hill that is full of native plants that would be quickly consumed by such a fire. Despite the need for such a facility, I would strongly urge a "no" vote for building the Compass Energy Lithium Storage.
