Proposed Battery Storage Facility

I am one of hundreds of Laguna Niguel residents greatly OPPOSED to a lithium battery storage facility on the San Juan Capistrano property that butts against the hills and trails in Laguna Niguel. A facility such as this one that could catch fire and cause millions of dollars to mitigate and dangerous air quality should be nowhere near our community or even surrounding communities. Most of the fire insurance companies have already ditched coverage due to arson and wildfires and we don't need anymore reasons for the remaining insurance provider to abandon us.
