Opposition to Compass BESS in SJC

I would like to file an objection to the proposed BESS site by Compass Energy in San Juan Capistrano until a full and detailed analysis of fire propagation in and around the proposed facility is completed. The site for the project resides in a CPUC defined High Fire Threat District (HFTD) which could create additional fire and ignition risk to communities in San Juan Capistrano and neighboring San Clemente as well as the risk of propagation to additional HFTD areas to the east and south.
